shripadpawar.skn.comp@gmail.com | 8010292853 | GitHub | Portfolio

## Summary

---

Computer Science graduate with hands-on experience in Machine Learning, Data Science, and AI powered applications. Skilled in Python, RAG, and LangGraph, with a strong passion for solving real-world problems using AI and data-driven technologies.

## Experience

---

### Data Analytics Associate | Speed Up Infotech

06/2026 – 08/2026

- Analyzed sales and revenue data using Advanced Excel and Power BI to identify business trends and performance patterns.
- Identified seasonal revenue patterns through historical sales analysis and studied factors contributing to peak-demand periods.
- Prepared data-driven reports and insights to support business decisions.

## Education

---

### Bachelor of Engineering (B.E.), Computer Science and Engineering,

2022 – 2026

SMT. Kashibai Navale College of Engineering, Pune

CGPA: 9.01/10

## Skills

---

Python | Java | SQL | Excel (Advanced) | Power BI | Pandas | NumPy | Matplotlib | Scikit-learn | FastAPI | LangChain | LangGraph | Machine Learning | Data Structures | OOP | Git | GitHub | Docker | AWS

## Projects

---

### FraudGuard – AI-Powered Fraud Detection System, Banking & Financial Fraud Detection

- Developed a machine learning-based fraud detection system using Random Forest with 80% accuracy
- Performed data preprocessing, feature engineering, and model evaluation on transaction data
- Built a FastAPI backend to serve real-time fraud predictions from the trained ML model
- Developed a Next.js frontend for transaction analysis with fraud probability and risk-level classification

### AI Chatbot with RAG using LangGraph

- Built a stateful AI chatbot using LangGraph for multi-step conversational workflows
- Implemented Retrieval-Augmented Generation (RAG) for document-based question answering using embeddings and similarity search
- Enabled real-time streaming responses with thread-based conversation support for resuming past chats
- Integrated SQLite for persistent storage of chat history and session data

## Certification

---

**Data Structures & Algorithms** — Arrays, linked lists, stacks, trees, sorting, and searching

**Python Programming Fundamentals** — IIT Kharagpur

**Data Science Certification** — Python, statistics, machine learning, and data visualization

## Achievements

---

### Hackathon Winner | Speed Up Infotech

- Secured 1st Rank for developing an AI-powered fraud detection system using Machine Learning.
